Creating positive relationships with physical activity for life

real PE
real learning
real evidence

Giving all children the physical literacy, emotional and thinking skills to achieve in PE, Sport and life
We believe every child wants to play, move and learn. It is in their DNA! They all have the right to develop positive early relationships with PE and Physical Activity.
We believe that a child’s early experiences provide a blueprint for their adult lives, developing the core memories and Fundamental Movement Skills (FMS) that act as the foundations and building blocks for future activity.

We believe every teacher can develop the positive early relationships and provide the essential ingredients children require to learn, develop and flourish.

We believe every school can create an enabling environment where young people feel included, valued, challenged and supported to achieve their maximum potential in PE, in school and in life.

We know active, healthy children achieve more.

“...we chose to invest in real PE because it’s the best thing I’ve seen on the market for 20 years. It puts children at the heart of learning, it’s not just based on PE, it’s based on quality learning... You’ve got to see the impact it has on your children and the learning in your school. It’s unbelievable.

Leigh Wolmarans, Headteacher, Lings Primary School
The problem...

Despite all the investment and initiatives over the years, activity levels of children are down, physical literacy is down, health problems are on the up with costs spiralling. All the evidence suggests that the present delivery of PE and Sport fails the majority of children and, in many cases, makes the problem worse.

We have lost sight of what children need to learn to maximise their potential in our subject which has led to the teaching of sport rather than the children. It has focused on present performance rather than maximising potential and long term participation.

We have traditionally delivered a subject where only a small percentage of children believe they can be successful and where children are afraid to stretch themselves due to a fear of failure.

Physical Education has been focused on the 20%, often delivered by the 20% of practitioners who successfully navigated their own early childhood experiences.

Many teachers feel inadequately trained and lack the confidence to deliver sport, ironically they are best placed to teach PE. In addition, their experiences of traditional PE provide a negative framework from which to teach.

We believe...

PE has been focused on only 20% of children
Delivered by the 20% of practitioners who successfully navigated their own early childhood experiences

*Meets recommendations: at least 60 minutes on all 7 days of the week for 5-15 year olds.

real PE is a philosophy and approach which helps ALL children develop the physical literacy, emotional and thinking skills to achieve in PE, sport and life. It places the learner at the heart of practice with the ultimate goal of children feeling valued, included, challenged and supported in their learning.

It transforms how we teach PE. It supports teachers and other practitioners to make small changes that will have a significant impact on their learners.

Unlike other programmes, it provides:

- longitudinal and comprehensive training
- clear learning journeys for children
- market leading resources
- ongoing support
- an impact report (for Whole School Insets)

all based on a holistic approach which recognises the key abilities children need to be successful both within PE and Sport and across the curriculum.

I have been looking for something like this since I came into teaching nearly 20 years ago! I love teaching PE but never felt as if I really knew what I was doing! Now I feel like an expert and as if I can work in a way that is engaging and inclusive of ALL of my pupils. Thank you so much!

Lucy Ashby, Teacher, St Peter Primary School
Part 1
- Introduction
- Philosophy
- Multi-abilities
- Fundamental Movement Skills
- Assessment framework
- Lesson format

Part 2
- Initial implementation and review
- Competition spectrum
- Creating healthy competition
- Creating teaching habits for learning behaviours
- Assessment tools

Part 3
- Review and next steps
- Embedded learning nutrition and learner led delivery

The programme for Early Years Foundation Stage, Key Stage 1 and 2 practitioners consists of three full days plus post-course learning material and evaluation.

Receive supporting resources to include, challenge and support the whole child:
- Curriculum map and integrated assessment framework
- Scheme of Work for your year group (36 weeks of lessons)
- Interactive DVD, posters and student cards containing over 200 Fundamental Movement Skills challenges
- Books and interactive tools containing thematic stories, songs, challenges and adventures (for EYFS/KS1 Practitioners)
- Menu of inclusive, creative, cooperative and competitive warm-ups, games, activities and review methods (for KS2 Practitioners)
- Multi-ability posters to support Assessment for Learning
- Long term support from initial training through to implementation
- Support to fully embed into your school
our vision

Creating positive relationships with physical activity for life. To redefine what’s possible for PE, Sport and physical activity through a new, positive and inclusive culture.

our mission

To provide innovative training and resources to support schools, families and communities to transform the culture of physical activity. Our unique, inclusive approaches create habits and develop essential behaviours, physical literacy, emotional and thinking skills in all young children.
